

Safe Transportation Policy

Scope

This policy applies to children, families, staff, Approved Provider, Nominated Supervisor, students, volunteers, visitors and management of the Preschool.

Statement

Transportation of children is sometimes provided as part of our education and care service. Compliance with the Education and Care Services National Law and Regulations is mandatory to ensure the safety of children at all times and new provisions and amendments to these regulations are reflected in our procedures and policy for transportation and the safe handover of children. We acknowledge our duty of care obligations by adhering to relevant legislation providing adequate supervision of children at all times, maintaining correct educator to child ratios, maintaining accurate attendance records and providing appropriate child restraints for children under our care.

Goal

The *Education and Care Services National Regulations* requires approved providers to ensure their services have policies and procedures in place in relation to the safe transportation of children and take reasonable steps to ensure those policies and procedures are followed (regulation 170).

[ACECQA, 2021]

We aim to ensure that all children being educated and cared for by our Service are adequately supervised at all times. This includes ensuring educator to child ratios are met whenever and wherever the service is operating including providing or arranging transportation as part of our service activity.

Strategies

All strategies detailed below will be implemented to the extent reasonably practicable.

Implementation

The safety of children enrolled at our Service is paramount. Every reasonable precaution is taken to protect children from harm and from any hazard likely to cause injury. Appropriate safety measures have been implemented through our comprehensive risk assessment process to ensure supervision is adequate at all times including transportation. Educator to child ratios is adhered to in addition to ensuring the maximum numbers on the service approval are not breached at any time. Adequate supervision is therefore not static as it is dependent upon a range of considerations documented in risk assessments. Procedures are in place to ensure a Nominated Supervisor or staff member is present and accounts for each child (and make a record) when children embark and disembark the vehicle at the service premises and the interior of the vehicle is thoroughly checked to ensure no child is left behind.

Definitions (effective March 2023)

Excursion: an outing organised by an education and care service

Regular outing: in relation to an education and care service, means a walk, drive or trip to and from a destination

- (a) that the service visits regularly as part of its educational program; and
- (b) where the circumstances relevant to the risk assessment are *substantially* the same on each outing

Regular transportation: in relation to an education and care service, means the transportation by the service or arranged by the service (other than as part of an excursion) of a child being educated and cared for by the service, where the circumstances relevant to a risk assessment are the same for each occasion on which the child is transported.

Transportation (that is part of the education and care service): Transportation forms part of an education and care service if the service remains responsible for children during the period of transportation. The responsibility for, and duty of care owed to, children applied in scenarios where services are transporting children, or have arranged for the transportation of children, including between an education and care service premises and another location, for example their home, school or a place of excursion.

Transition: In relation to the day-to-day process of moving between the service and a range of different education and care settings or from the education and care setting to a school setting.

Written authorisation: authorisation given by a parent or other person named in the child's enrolment record as having authority to authorise the child being transported by the service or on transportation arranged by the service. If the transportation is regular transportation, the authorisation is only required to be obtained once in a 12-month period. The authorisation must state:

- a) the child's name; and
- b) the reason the child is to be transported; and
- c) if the authorisation is for a regular outing, a description of when the child is to be taken on the regular outings; and
- d) if the authorisation is **not** for a regular transportation, the date the child is to be transported; and
- e) a description of the proposed pick-up location and destination; and
- f) the means of transport; and
- g) the period of time during which the child is to be transported; and
- h) the anticipated number of children likely to be transported; and
- i) the anticipated number of staff members and any other adults who will accompany and supervise the children during the transportation; and
- j) any requirements for seatbelts or safety restraints under a law of each jurisdiction in which the children are being transported; and
- k) that a risk assessment has been prepared and is available at the education and care service; and
- l) that written policies and procedures for transporting children are available at the education and care service.

Transport specific risk assessment

As per the Education and Care Services National Law, our Service will *'ensure that every reasonable precaution is taken to protect children...from harm and from any hazard likely to cause injury'* (Section 167). Our Service will conduct comprehensive transport specific risk assessments to minimize and manage all potential risks for transporting children before authorisation is sought to transport a child. [Reg. 102B, 102D (4)].

A risk assessment will be undertaken at least annually for *'regular transportation'* of children. Each time our Service transports, or arranges, the transport of children as part of an excursion, a new risk assessment will be conducted. All risk assessments will be regularly assessed and evaluated as to facilitate continuous improvement in our Service.

Our risk assessment process is guided by the following:

- **identify** any hazards or potential hazards that transporting the child may pose to the safety, health and wellbeing of the child
- **assess** the risk of harm or potential harm using a risk matrix
- **specify how the identified risks will be managed** by eliminating or minimising the impact using control measures
- **evaluate** the current risk or potential harm by implementing control measures
- **review** and monitor the risk or potential harm to ensure it continues to be managed as a low risk

source: Risk assessment and management ACECQA (2020)

Our risk assessment will consider:

- a) the proposed route and duration of the transportation; and
- b) the proposed pick-up location and destination; and
- c) the means of transport; and
- d) any requirements for seatbelts or safety restraints (as per the law of our jurisdiction); and
- e) any water hazards; and
- f) the number of adults and children involved in the transportation; and
- g) given the risks posed by transportation, the number of educators or other responsible adults to provide supervision and whether any adults with specialized skills are required; and
- h) whether any items should be readily available during transportation (mobile phone, list of emergency contact numbers) and;
- i) the process for entering and exiting-
 - i. the education and care service premises; and
 - ii. the pick-up location or destination (as required); and
- j) procedures for embarking and disembarking the means of transport, including how each child is to be accounted for on embarking and disembarking.

Additional considerations may include:

- the experience of the driver and licensing conditions for the vehicle
- the age, ability, needs and skills of children being transported (non-ambulant, infants)
- the experience of the adults involved in transportation and their capacity for supervising children
- movement of children between the vehicle and venues
- traffic conditions
- extreme weather conditions or natural disasters
- environmental hazards such as temperature extremes, smoke
- communication to/from the vehicle- mobile phone reception
- health needs of all children and adults
- first aid provision and management of illness, injuries and emergencies
- child safe practices.
